AccuRounds: 21st Century Advanced Manufacturing & Engineering

Tuesday, January 29, 2019
9:30 AM – 11:00 AM

“Advanced manufacturing demands a highly-skilled workforce trained in the latest digital technologies and operational processes.” MassMEP

ABOUT THE SITE VISIT:

AccuRounds, founded in 1976, is a high performing 21st century contract manufacturer that machines and assembles precision turned components. The components manufactured by AccuRounds are used in a variety of applications such as pins that are assembled into airplane wings, shafts used in equipment for manufacturing the influenza vaccine, and valves that control flow in oil pumps.

AccuRounds was at the forefront of the manufacturing industry in 1995 when it embarked on a successful quest to become a World Class manufacturing operation. With a modern facility, state-of-the-art technology, on-site fitness center and community garden, AccuRounds has become an employer of choice.
